

New opportunities for social inclusion in mountain areas

11-13 May 2017 _Salecina Monica Argenta

What is a **cooperative**? ?

What is società cooperativa sociale perative? (In the italian regulation)

· Type A: personal care

• **Type B:** inclusion in the labour market of disadvantaged categories

What is **Cadore** social Cooperative?

Invent work through the work and give an indentity to the inhabitants of the Veneto rural mountain area through a knowledge economy

For who

The mission of the cooperative is to offer opportunities to the inhabitants of the local rural area but we also deal daily with categories of disadvantaged people that are included in the Italian law "Legge 381 del 1991" and in the "Commission regulation (EC) No 2204/2002".

The results that the cooperative can boast have been achieved thanks to a strong network of different types of partners; this is why the project is first of all an important result for the whole community.

Where we operate

The cooperative Cadore was founded in 2008, and started its activity on 1st July of the same year. Since that day the mission of the cooperative has been to: "create and invent jobs" in Cadore, situated in the Province of Belluno in the Dolomite area.

Partnership, public and private sector

Other cooperatives

Employment centre
